

Prepare

1.Expansion Pack Description

In our product line, the QD001-smart car is the base component, while other products are expansion packs. If you have purchased both the smart car and expansion packs, please start with the QD001 tutorial for basic training, and then refer to the tutorials for the specific expansion packs you purchased.

2.After-Sales Support

If you encounter any issues, please contact our support team via email at support@acebott.com, and we will respond within 24 hours. You can also scan the QR code below to follow us for troubleshooting guides and the latest updates.

Or scan the QR code below.

4.Tutorial Introduction

[Click here to get the tutorial link.](#) The first five lessons of this tutorial are about knowledge related to cameras. If you want to directly experience the programming process, you can skip the first five lessons and start from Lesson 6.

5.Software Version

This tutorial is applicable to ACECode version 2.0.3 and above. You can check the software version number in the upper left corner of the ACECode software. Please make sure that the software version you are using meets the requirements.

If you need to update the ACECode software version, you can go to the ACEBOTT official website: <https://www.cebott.com/pages/software> to download the latest ACECode software version.
